

I. Grammar Exercise/Translation: Translate the following from English to Arabic:

In chapter 5, Riad travels to France with his mother and brother. His father stays in Syria. Riad will be in France for two weeks. The last time he was in France, he was a small boy.

On the first day, Riad eats a lot of different kinds of new food at a buffet, and he goes to sleep very happy. Afterwards, on the second day, Riad goes to a large mall and his mom buys a toy and a lot of food. As a result, Riad loves France and thinks that the mall is the best place in the world.

Although Riad loves France, Riad does not ski well, and he falls a lot down the snowy mountain. He wears his winter clothes and still does not ski well. Riad also walks on the beach with his grandmother, and his grandmother tells him about World War II. Traveling to France was an interesting experience, but now he will return to Syria.
